Elevate your messaging in limited spaces

500 nits brightness

Our stretch displays have a 500cd/m² rating, perfect for bright indoor spaces such as supermarkets and grocery stores and shopping malls.

Easy to install

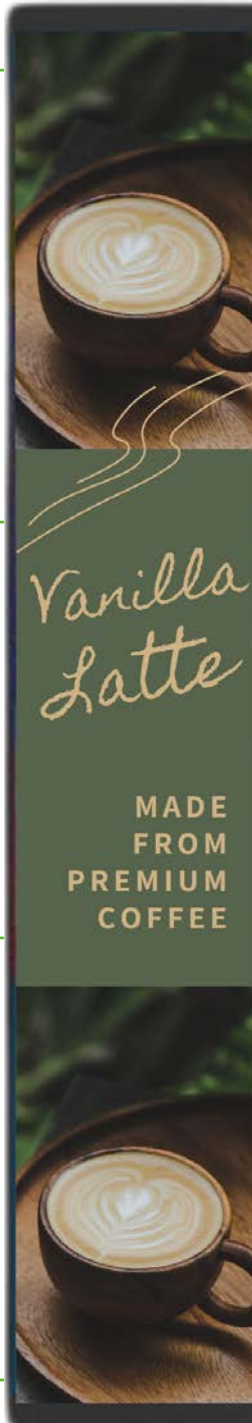

Install your stretch display easily into your space using the free VESA wall mount provided.

High resolution

The displays are cut from a full HD LCD panel, providing excellent picture quality even down to the expression of details.

Long life span

Designed with round-the-clock digital signage in mind, this display can run all hours of every day for over 50,000 hours.

Versatile design

The ultra-thin and ultra-light design makes the display highly suitable for placing in long and narrow spaces such as supermarket aisles, makeup counters and more.

Plug and play

Play your content via USB stick or run your application from the integrated Android 9 SoC.

Connect a mini PC

For applications that require a Linux/Windows PC, connect your own NUC PC with HDMI in.

Landscape or portrait orientation

Thanks to commercial grade panelling these displays can be mounted in either landscape or portrait orientation with a 178 degree viewing angle.

Increase customer engagement with 24/7 signage

The Muro Stretch is a sleek digital display that will boost your advertising reach, increase footfall and engage your customers. It is ideal for a range of indoor environments including retail stores, shopping malls, restaurants, transport stations, elevators and more.

Plug and play

Run your content or application in minutes using the embedded Android SoC. Alternatively you can connect your own mini Windows or Linux PC, depending on your preference.

Optional CMS

Control your digital signage remotely from any device with an internet connection by subscribing to our cloud-based digital signage system. Create new messages quickly with the drag-and-drop content builder and publish live on your displays in seconds.

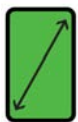

Brightness

The Muro Stretch displays have a 500cd/m² brightness rating which makes them stand out in bright indoor environments.

Robust components

Manufactured to the highest standards with commercial-grade components, the Muro is designed to run seamlessly 24/7 with an average lifespan of over 50,000 hours.

Screen size options

Available in a variety of sizes to meet all your needs including; 16.4", 23.1", 24", 35", 37" and 43.8" as well as custom sizes.

3-year warranty

The Muro Stretch display is provided with a standard 3-year warranty included for your peace of mind.

The Muro Stretch Display

The Muro Stretch is a versatile wall-mounted digital signage display, available in 16.4", 23.1", 24", 35", 37" and 43.8" as well as custom sizes.

Whether you are looking to place the display at the end of an aisle, above an elevator or on a pillar these displays offer a range of application options to suit narrow and limited spaces to ensure you optimise every opportunity to engage with your audience.

With the flexibility to use the display in either portrait or landscape orientation, it will maximise your viewer engagement in spaces where a larger display cannot, allowing your content to fit seamlessly into the environment.

The slim profile of the display means that it is also ideal for retail and can be fitted in an aisle above products to compliment and enhance a product promotion.
